Fordson
TRADE MARK

We realize that to-day every wise farm owner thoroughly investigates the tractors that are most suited to his needs—looks up their records, the men who built them, and the way in which he will be cared for after his machine is bought. And in this way he gets the one machine best suited for his needs. That's just the message we would like to give you—how the Fordson was built to meet actual farming conditions, how it did that before it was put on the market; how it has upheld the name "Ford" among 110,000 Fordson owners; how we do not lose sight of our customers' best interests after the tractor sale is made.

The story of our service—our method of providing for and taking care of all "Fordson" owners' needs in our territory—is a vital consideration for you before you make your choice of machines.

All about the "Fordson" is a message well worth hearing—let us tell it to you in person.

THE THEATRE

Strand Theatre
Travellers returning from the far east tell wonderful stories concerning the oriental mystics who do feats that look almost like witchcraft, but no story of the Hindu's can compare with the talk that is created by Nalla Axmi, the master seer and crystal gazer who with his company of Mystics will appear at the Strand one week commencing Sunday, September 16th. In Indiana the name of Nalla Axmi is a household word. In that country he has many times given his performances before all the dignitaries of the British Government and has many times appeared in the temples and has astounded all the far-famed Fakirs of British India. Nalla Axmi and his clever company has appeared in every large city on earth including 16 weeks in London, 20 weeks at different times in Greater New York, and always in the higher class of theatres. The features presented are sensational and have always pleased the most critical and exacting audience.

No one of intelligence calls electricity a fake of humbug. Its demonstration precludes all question of human invention of the remarkable force. Its source remains as mystifying as ever, and probably beyond human conception and comprehension.

The scientific world accepts crystal gazing as a positive fact. This Telepathic possibility is becoming a study in the development of the subconscious mind that is well worth looking into. This is undeniably the most complete and perfect exhibition of its kind in the world and has been the talk of every city. Write your questions at home, seal them in an envelope and Nalla Axmi gives you a correct answer whether it concerns business, investments, lawsuits, love, domestic or social affairs, rivals, separation, divorces, etc.

Pyrex

Transparent Oven Dishes

Please the People—Because
They're Attractive, Useful and Durable.

PYREX SAVES FUEL, FOOD and LABOR

PYREX saves about one-half the fuel usually required, because it absorbs all the oven heat and bakes food quickly.

PYREX saves food in many ways. Meats, vegetables, etc., when cooked in PYREX, retain their natural color and flavor to such a degree that economy may be practiced in buying less expensive kinds and yet have delicious food. Most foods usually cooked on top of the stove can be better prepared in the oven.

PYREX saves labor—it is always free from grease and odors, for nothing can penetrate the hard smooth surface. You can wash it as easily as your china and silver.

Every practical shape and size for baking is made in PYREX. It is ready for immediate use and never discolors, rusts, crazes, dents or chips.

BE SURE TO SEE THE BIG DISPLAY OF ENGRAVED PYREX IN OUR WINDOW
